

SINGLE FEASIBLE SOURCE PURCHASE POSTING NOTICE

The Missouri Department of Transportation has determined that only one source can provide the products or services described below

Title: SealTekk™ Polymerized Cationic Emulsified Asphalt Product
SFS 7-100721 SealTekk™ Asphalt

Description: The Missouri Department of Transportation (District 7) has determined that only one known source can provide the department with SealTekk™ asphalt. SealTekk™ is a polymerized cationic emulsified asphalt product utilized as a high performance emulsion for use in chip seal applications. It shall be capable of allowing a faster break and superior adhesion to aggregate than conventional chip seal emulsions such as CRS-2P. The emulsion shall be engineered to the specific aggregate on the project to ensure maximum compatibility and highest performance. Performance of the end product will be validated using the ASTM D-7000 sweep testing procedure. Application rate shall vary according to the demands of the pavement but shall typically be in the range of 0.30-0.40 gal/sq yard for use with MoDOT Spec. 4 chip seal aggregate limestone. Purchases relating to this product are not expected to exceed \$25,000.00 individually and/or cumulatively during the MoDOT pilot project. This pilot program is needed for additional testing.

Contract Period: 3 months

Renewal Options: None

Agency: Missouri Department of Transportation

Supplier: Road Science, LLC

Buyer: Mary Teel

Phone Number: 417-621-6356
